Job ad „Metal High-Gloss Polisher. “

---

We are a small but fine company in the metal industry and have specialized in the treatment of metal surfaces. Especially steel and aluminum. Our customers have been entrusting us with their valuable tools, components and end products for more than 20 years so that we may give them a personal touch. And this in the truest sense of the word, because we work exclusively by hand and with hand grinders. So, we understand ourselves as craftsmen, but to a certain extent also as artists.

We are always looking for dedicated, adaptable, and responsible employees who support us with prestidigitation, attention to detail as well as a sense of quality, precision, and diligence. Specifically, we are looking for you as a

**Metal High-Gloss Polisher (m/f)**

You are a car mechanic, a mechatronics engineer, or have a comparable education in the metalworking industry. With several years of experience as a polisher or in a similar position, it is easy for you to high-polish steel or aluminum surfaces to customer specifications. Of course, you are also familiar with other polishing techniques, e.g. brushing or blasting. Working independently suits you as much as teamwork. Technical drawings are no cryptic secret for you and safe handling of measuring equipment as well as grinding tools is your second nature. Very good eyesight and basic knowledge in quality testing completes your profile.

You have a forklift license or are ready to get one. Your drivers license allows you occasionally to get to a customer site, if necessary, also on weekends every now and then. In addition, you have enough knowledge of the German language to be able to talk to customers, supervisors, and colleagues about your tasks.

We offer a secure workplace, competitive pay, and a long-term perspective.

Do you recognize yourself in this description and do you feel like accepting a new challenge? If so, please send us your contact information and your CV by mail as soon as possible to Sochor Polishing & Welding, Attn. Mrs. Sochor-Hummel, Kaerntener Str. 25, 71522 Backnang, Germany or by e-mail to [info@sochor-ps.com](mailto:info@sochor-ps.com).
